

## Get Peace Of Mind *For as Little as \$149.*

**TOILET  
BARS TOO!**  
A BAR TO  
HELP GET ON  
AND OFF THE  
COMMODE.

I take care of everything - obtaining the grab bars, installation and clean-up.

Whether it is for yourself or a family member, for \$149 I can install a basic chrome or stainless steel grab bar in your tub or shower area.

The cost of two chrome or stainless steel basic grab bars installed is \$239. Typical sizes are 12", 16", 18" and 24". I will work with you to carefully decide the right placement for your bars. ***The best way to get started is to give me a call, 941-952-9602.***

### Meet Richard and Elaine

Being a tile contractor and bath remodeler almost all of my adult life with the experience of tearing out and rebuilding many hundreds of tub and shower areas, I have the background and skills necessary to properly install your grab bars. I will work patiently with you to determine the right size and location of the grab bars so you can be safe in your home.

I can typically have your bars installed the day you call or the next day.
